- Aided in notetaking and qualitative analysis of focus groups consisting of community members with lived experience, summarized in a research report for key organization stakeholders

UX Researcher @ theScore

May - August 2024, Toronto, ON

- Owned a research project from end-to-end on usage and satisfaction of promotions; informing product through knowledge sharing of pain points and areas of improvement for future quarters
- Introduced usage of Machine Learning methods for UX research in automated coding of open-ended survey responses through training scikit-learn models on prior mass survey data

UX/UI Designer @ WSIB Innovation Lab

January - April 2023, Kitchener, ON

- Led the creation of user research questions and moderator's guides; conducting semi-structured interviews to inform design decisions and ensure that systems meet usability standards
- Improved and iterated on Figma designs for a lab-wide project by creating 10+ prototyped components and named state variants in order to improve designer efficiency over multiple iterations

UX Designer @ Arctic Wolf

May - August 2022, Waterloo, ON

- Developed and led a UX research project, conducting semi-structured interviews and usability tests in order to improve user workflow and enhance an iterative design process
- Crafted accessible user interface elements and designs for various internal products, leveraging Figma components to standardize and improve designer efficiency and designer-developer handoff

Online Resource Designer and Developer @ University of Waterloo Library

September - December 2021, Waterloo, ON

- Developed custom and accessible learning modules using open source JavaScript and jQuery framework H5P for use in post-secondary education in information gathering and retrieval
- Designed and tested various modules and UI elements to meet both accessibility and visual standards; used Figma for storyboarding and HTML/CSS for developing
